

FEED SAFETY POLICY OF ARKOP Sp. z o.o.

**The goal of ARKOP Sp. z o.o. in Bukowno
is to ensure the health safety of products
produced in our factory.**

We achieve the above goal by maintaining and improving the HACCP system in accordance with the FAMI-QS code of conduct for the following product groups:

- zinc oxide feed,
- feed chelates,
- fine crystalline metal sulphate monohydrate,
- other organic and inorganic chemistry compounds used in the feed industry.

We are committed to providing safe products, free from adulteration, meeting current legal requirements and maintaining the highest technological regimes at every stage of their implementation.

All employees of ARKOP Sp. z o.o. make efforts to:

- maintain the highest standards of feed safety,
- continually supplement knowledge and skills through systematic training,
- recognize clients' needs and meet their requirements.

We are committed to continuous improvement and dissemination
feed safety policy in our company.
